

# Alejandro Vivanco

Alejandro Vivanco, born in Chile, was introduced to music by his father who played the Tenor saxophone and had a large collection of jazz records. Alejandro's first musical instrument was the electric guitar, through which he formed a band, but this was quickly followed by an interest in machines and a love for Detroit and Acid House. Within a very short period of time, he was addicted to turntables and became a highly respected DJ. Since 2001, he has been a resident of La Feria in Santiago and his releases include appearances on labels Supernature, Cadenza, Cocoon, Dumb Unit and many more.

With a summer based in Berlin, extensive traveling playing the european party circuit, and new productions soon to be, or just released on Leena Music / Fumalab / Opossum / Titbit / Fumakilla and others, Alejandro Vivanco is one of the rising stars to keep an ear out for, i'm sure we'll all be hearing a lot more from this chilean maestro in the coming months.....
